To Whom It May Concern:

April 7, 2014

Please consider employing Shannon Morean as a full-time teacher in your district. I have been working professionally with Ms. Morean for two years beginning with her employment as a fifth grade tutor at South St. Marys Street Elementary School in St. Marys, PA two years ago.

Ms. Morean is an asset to our staff in that she is willing to help in any manner without hesitation. She tutors children that need remediation as well as challenge those who need enrichment in different subject areas. She is always willing to develop activities to enhance the education of all students.

Ms. Morean is very dependable. On many occasions, Ms. Morean has come to work early and stayed late until she was sure the children's and teachers' needs were adequately met. She is always eager to 'go the extra mile' to help any student or staff member.

Understanding and communicating with students is extremely important to Ms. Morean. She can be spotted around school conversing with students about things that are important to them. She definitely sets a nice, comfortable tone with students and faculty.

You will be pleased with Ms. Morean's professionalism and repertoire with students and fellow staff members. Please consider hiring Shannon Morean to teach in your district.

Sincerely,

Samantha Nedzinski

Fifth grade teacher, South St. Marys Street Elementary School
